

From my experience, it is inconceivable to allow the Bells to be re-classified as "non-dominant"! They ARE dominant and do not even follow current guidelines in letting others have access to the facilities that we need for real competition.

Do not let the Bell "Wolves" own the chicken coop you already allow them to dominate. Competition requires competitors to be alive. If the FCC lifts the dominant classification from the Local Exchange Carriers (Bells), it will limit competition to a duopoly consisting of a Bell and a cable company. Competition in the American Telecom marketplace will not be incentivized, it will be torpedoed. ISPs and CLECs will die, consumers will be deprived of choice and the FCC will be wholly to blame for the travesty! DO NOT DO IT.
